

I want to build a CV-like web-site, with a home page, index (In which I will display some general info about the structure of the site, my intentions, the way it works etc. It will have a NAVBAR MENU (Bootstrap) navigation, with PERSONAL INFORMATION AND SKILLS, EDUCATION and WORK (TOTAL= 4-5 (if I add a CONTACT ME Page with forms in it).

COMMON AREAS: HEADER (contains an image of me with a link to HOME), some very basic info about me (age, gender etc) + NAVBAR MENU + FOOTER (with some generic info, like phone, email, copyright etc.)

To integrate some JS, a pop-card on the side with favourite movies/ quotes... of mine that change (from an array) when clicking a button.

Mobile first, supported on all devices, via MEDIA QUERRIES, Tresholds:

```
/* Extra small devices (phones, 600px and down) */
```

```
@media only screen and (max-width: 600px) {...}
```

```
/* Small devices (portrait tablets and large phones, 600px and up) */
```

```
@media only screen and (min-width: 600px) {...}
```

```
/* Medium devices (landscape tablets, 768px and up) */
```

```
@media only screen and (min-width: 768px) {...}
```

```
/* Large devices (laptops/desktops, 992px and up) */
```

```
@media only screen and (min-width: 992px) {...}
```

```
/* Extra large devices (large laptops and desktops, 1200px and up) */
```

```
@media only screen and (min-width: 1200px) {...}
```
